

How to pay us:

Our approach to selecting payment options is to reduce costs for both customer and ourselves. By controlling and reducing banking costs we can avoid increasing prices for our diving and other services.

For payments and other financial transactions we have a number of options:

Our preferred method of payment for Canadian residents is an Interac e-transfer. This is an online banking service offered by a lot of financial institutions. It basically sends an e-mail with links that allow us to receive your payment. This service is low cost for both sender and receiver.

More details: <http://www.interac.ca/en/interac-etransfer/etransfer-detail>

**REMEMBER:** this service asks you to create a security question and answer that need to be matched when accessing the funds. So please e-mail us the answer after to sent the transfer to: [info@rendezvousdiving.com](mailto:info@rendezvousdiving.com)

For larger amounts (C\$ 500 +) direct bank deposit is another option. At that level banking costs are equal or less than credit card costs.

We do accept credit cards but not all available on the market. We accept Mastercard and Visa.

For our overseas customers we generally use direct bank transfers. The reason for this is the increasing effort and costs connected with refused cards.

If you have specific needs or questions for payment feel free to contact us at [info@rendezvousdiving.com](mailto:info@rendezvousdiving.com)
